#### MANDATE AND PROGRAMMING PRACTICE

The mandate of the Downtown Eastside Heart of the City Festival is to promote, present and facilitate the development of artists, art forms, cultural traditions, history, activism, people and great stories about Vancouver's Downtown Eastside.

Program choices are developed via collaborative consensus with community partners and artists, some of whom partner with additional organizations for additional support. Some events are produced by the festival; some are presented in partnership with other organizations, artists and residents; and some are self-produced and presented under the festival umbrella. The festival also supports and partners with arts-based community development projects that give birth to new art and voice local concerns.

*If you have a project or program idea for future festivals, please contact Terry Hunter at 604-628-5672.*

The Festival is an opportunity for us to enjoy the cultural richness of the Downtown Eastside, and to celebrate the venerable community that is integral to our thriving city. The lively artistic atmosphere, the location, the people and the creative passion all combine to make the Festival a fantastic experience. I want to offer my congratulations to all the folks who have once again come together to create another inspiring festival with all their creative and hardworking talents. They are exceptional people who give so much and work so tirelessly to bring this festival to you. Thank you for your efforts, and thank you for the experience you bring to the community. Have a wonderful time!

**Yours sincerely,  
Libby Davies, M.P.  
Vancouver East**

Greetings, and welcome to the Heart of the City Festival!  
What can be said that hasn't been said already? As it turns out, so very much. This year's theme, "Voices From The Heart", highlights the ability of each and every member of the community to honour their own person, their own journey, their own wisdom and their own wishes. This year's Festival provides a venue to share in each others' voices, and together, to continue to tell the story of the Downtown Eastside, the Heart of our City. With every beat of the heart, a new story grows. Thank you to the many people who have worked to make this year's Heart of the City Festival a success.

**Sincerely,  
Jenny Wai Ching Kwan, MLA  
Vancouver-Mount Pleasant**

*Welcome!*

On behalf of Premier Christy Clark and the BC government, I warmly congratulate Vancouver Moving Theatre, Carnegie Community Centre and the Association of United Ukrainian Canadians for presenting the 9th Annual Downtown Eastside Heart of the City Festival. As part of our commitment to healthy communities, the BC government is providing more than \$53 million again this year in stable funding for arts and culture in British Columbia, including more than \$16.8 million for the BC Arts Council (BCAC). A publicly funded agency of the BC government, BCAC approves grants to applicants representing a diversity of artists and cultural organizations. Grant recipients include: writers, painters, actors, musicians, community arts councils, art galleries, arts festivals, orchestras, film societies, museums, theatres and students on art scholarships. Last year, BCAC approved 1,027 grants to recipients representing more than 200 communities throughout British Columbia. This funding helps build healthy, family-friendly communities across our province. This year BCAC granted the Vancouver Moving Theatre \$32,000 in 2011-12, including \$18,000 to support the Heart of the City Festival. Best wishes to the Downtown Eastside Heart of the City Festival for every success in 2012 and in the future.

**Bill Bennett  
Minister of Community, Sport and Cultural Development**

On behalf of the City of Vancouver it is my pleasure to welcome everyone to the 9th Annual Downtown Eastside Heart of the City Festival. The Heart of the City Festival is a wonderful flagship event which celebrates the diverse culture and heritage of the founding communities of Vancouver. The festival gives voice to the residents of the Downtown Eastside, and builds bridges between the many mini-communities of the greater Downtown Eastside and between the Downtown Eastside and Greater Vancouver. Congratulations to the entire production team and the community partners on the success and impact of the Festival. And thank you for your leadership and commitment to community. Your contribution to the life of the City of Vancouver and the Downtown Eastside is greatly appreciated. Enjoy the Festival everyone. And enjoy the heart of our great city!

**Yours truly,  
Gregor Robertson  
Mayor of Vancouver**

On behalf of the BC Arts Council, I would like to welcome you to the 9th Heart of the City Festival. The Heart of the City Festival showcases the dynamic arts and culture in the diverse communities of Vancouver's Downtown Eastside. The theme for this year's festival – "Voices from the Heart" – celebrates the talents, wisdom and strength of artists and highlights their contributions to the local community. I would also like to express our gratitude to Vancouver Moving Theatre, Carnegie Community Centre, the Association of United Ukrainian Canadians, the festival organizers and volunteers for their dedication and assistance to this important cultural festival. The BC Arts Council is pleased to have supported the festival over the years, and we wish you every success in 2012 and the future.

**Stan Hamilton, Chair  
BC Arts Council**

The Downtown Eastside is our home, a home we share with thousands of other diverse people who deeply love this community. The poet Muriel Marjorie (Williams), who graces the cover of this program guide, shouts it out so eloquently: "*I love the Downtown Eastside because of its beauty and its strength, its refusal to SHUT UP and its insistence upon justice.*"

This line of fiery poetry exemplifies the theme of this year's festival: *Voices from the Heart.*

At the festival you will hear voices that inform, raise awareness and educate about the stories, concerns, values, heritage, art forms, community plans and exciting art generated in Vancouver's founding community.

Voices that speak to the wisdom and power of our community and the challenges it faces. And voices that celebrate the neighbourhood's indigenous stories so that old and new community members can draw strength from the community's heritage, feel pride in its residents and values, and understand its roots.

Thank you to our community partners and all those in the community who have helped realize this year's event, our ninth annual festival. Thank you to our festival team who have worked with such dedication to produce, promote and present the many events throughout our neighbourhood at this year's festival. And a special heartfelt thank you to Teresa Vandertuin (Associate Artistic Producer) for the passion, commitment, care, thoroughness and sense of humour she pours into the festival.

See you at the Festival everyone! Enjoy!

# ♥ VOICES FROM THE HEART ♥

## FIRST VOICES, LEGENDARY VOICES, FORGOTTEN VOICES, FAVOURITE VOICES, DIVERSE VOICES, EMERGING VOICES

*"We need to tell our own stories. If we don't tell our own stories, people with power will tell our stories for us and we won't like what they say."*

Sandy Cameron

Some stories about Vancouver's development are to be found only in the waterways, streets, buildings and landscapes of the Downtown Eastside – and in the memories of its residents. They are part of the founding story of this city, the common heritage of all who live in Vancouver. These Living Stories – and the stories of people who live here today – are the foundation of our Downtown Eastside community.

This place from which Vancouver grew is one of the city's least understood and most publicized communities. Since Vancouver's founding upon unceded Coast Salish territory, this spit of land has been an entry point for successive waves of immigrants and young families. It is home to the largest urban Aboriginal unofficial "reserve" in Canada and the second largest historic Chinatown in North America: a working and retirement home for resource workers, a haven for middle class professionals who value sustainability over growth, and a sanctuary for artists and the marginalized. Today the worlds of these residents co-exist in many of the same places as the street scene.

Shaped by its mix of housing, industry, cultural diversity and history, the neighbourhood's distinctive overlapping

mini-communities feature Vancouver's oldest buildings: Gastown, Hastings Corridor, Chinatown, Japantown (Powell Street) and Strathcona. Each street is like living in a different neighbourhood, filled with interesting people from different walks of life and circumstance. The Downtown Eastside attracts and keeps people with a deep loyalty to their home.

Diane Wood

*"It's the people who make our community beautiful", said poet Sandy Cameron, "and they do it by reaching out to each other and helping each other. Even as the giant fir is nurtured by its roots, so our community of the Downtown Eastside is nurtured by its members."*

Downtown Eastsiders are sharing stories of today and times gone by with words and images, in paintings and photographs, songs and dances, poems and plays, books and films, history talks and walks. Our stories provide ways for people to talk – in their own words – about their experiences and ways of being in the world. These stories are not always easy to hear, nor easy to find, nor easy to tell. They uncover our hardships and defeats, but they also reveal our strengths and possibilities. Loss is a profound turning point in many of these stories, as are struggles for justice and human rights and testimonies that play a part in the process of transformation.

Our stories celebrate people who manage to thrive and be decent to each other in spite of terrible obstacles, misery and poverty. Our stories remember those who have been lost and those who have rediscovered who they are. Our stories honour our ancestors and heroes past and present.

Our stories, like our ceremonies, show how – as a community – we can come together despite our seeming differences to bring about positive change for the future and make the Downtown

Eastside a healthy community for those who call it home. Our stories remind us to never, never give up; that gains always have to be defended; that you can't leave it to other people to fight your battles; that all of us are involved; that success – and survival – depend upon helping and supporting each other. ©

**CONTINUOUS JOURNEY**  
Saturday October 20, 4pm – 7pm  
Centre A, 2 W. Hastings

In 1914 a Sikh entrepreneur based in Singapore, chartered a Japanese boat, the Komagata Maru, to carry Indian immigrants to Canada. When the ship arrived on May 23 in Vancouver's harbour, many of the men onboard were veterans of the British Indian Army and believed that it was their right as British subjects to settle anywhere in the Empire. But as a direct result of a little known immigration policy, the ship was surrounded by immigration boats and thus began a stand-off of two months detention. (2004, 83 mins, Peripheral Visions) Artist conversation to follow with filmmaker Ali Kazimi and Evan Lee, moderated by Haema Sivanson. ## MILESTONES

### TEN YEARS SINCE WOODSQUAT

Vancouver's most famous squat began in September 2002 and impacted the future of the Downtown Eastside. Throughout the 1990s, DTES community groups gathered at the abandoned Woodward's department store to push for social housing. When the province announced plans to sell the building to a developer, community frustration led to WoodSquat. Hundreds of people climbed a ladder to the second floor and hundreds more maintained a support vigil on the street below. In the early hours of the tenth day, riot police raided the squat and arrested fifty-four people. After their release they marched directly back to the site and the community set up a sidewalk squat for a long, rainy ninety-two day fight for social housing. The squat succeeded in stopping the private sale of the Woodward's building and won some social housing, but the displacement of, and impact on, low-income residents continues to be felt today.

## Telling Stories

We need to tell our own stories.  
If we don't tell our stories,  
people with power  
will tell our stories for us,  
and we won't like what they say.  
When we tell our stories,  
we reach out to each other  
and build community.  
We share our pain.  
We share our hope.  
We share our laughter,  
and our determination.  
When we tell our stories  
we draw our own maps,  
and we question  
the maps of the powerful.  
Each of us has something to tell,  
something to teach.  
We speak the language of the heart –  
here – in the Downtown Eastside –  
the soul of Vancouver.

Join CCAP on a walking tour of "gentrification borderlands" to highlight new pressures upon the DTES Oppenheimer District (DEOD) that threaten displacement of social housing in the area. Gentrification and rising food costs can feel overwhelming for low-income local residents walking through the Victory Square and Gastown areas. But residents are strong and want to protect their homes and neighbourhood in the DEOD: it is still possible to slow gentrification, preserve good things about our community, and work for more social housing. ### SHARING OUR STORIES/ ПЕРЕКАЗ НАШОГО ЖИТТЯ

Friday November 2, 7pm – 9pm

Ukrainian Hall, 805 E. Pender

You are invited to join Beverly Dobrinsky and guests for an evening of remembering and song. Beverly has had the pleasure of spending the summer in the homes of many gracious people who have shared their experiences connected with the Ukrainian Hall, including during the labour struggles and performances of the 1930s. Many were born, grew up in, and/or worked in this neighbourhood. Even when their families moved, the Hall remained their home away from home. The Ukrainian Hall has served as a community meeting place since its inception in 1928 and these stories reflect how she continues to serve her community over the years. Come to listen and to add your voice to our collective experience. Free

This story gathering event will contribute to the development of the script for *Bread and Salt*, a new Vancouver Moving Theatre production scheduled to premiere next year in conjunction with the 85th anniversary of Vancouver’s Ukrainian Cultural Centre.

With a grant from the Department of Canadian Heritage Youth Take Charge Program, Vancouver based Miscellaneous Productions debuted the premiere at the Children's Festival in May. Artistic Director Elaine Carol directed and co-wrote the script with original music by composers Paul Bray, Ndidi Cascade and Cris Derkson, choreography by Dianna David and fight choreography by David Bloom. ### GALLERY GACHET CELEBRATES Twenty Years!

Gallery Gachet has made 88 East Cordova Street in the Downtown Eastside its home for fifteen years. 2012 is also the year we celebrate our twenty year anniversary. From the operation of a tiny, basement studio in 1992 on Granville Street with the presentation of our first exhibition in 1993, the Collective has grown from a small collection of psychiatric survivors into a group of artists and staff who are informed by issues surrounding mental health and social justice and who run a vital, community-driven artist-run centre in the heart of an artistically proud neighbourhood. We pay homage to our history this year by focusing on our past achievements and developments with the programming of ART-i-FACT: 88 East Cordova Project that encompasses multiple presentations: Gallery Gachet & The Oppenheimer Park Community Art Show (Oct 2012), Collective Habitat 1997 - 2012 (Dec/Jan 2012), L'Etat percu de Folie – a performance art series curated by Irene Loughlin (Sept 2011), and an online exhibition for the Virtual Museum of Canada (Fall 2012).

## Film & Video

AN AFTERNOON OF DOWNTOWN EASTSIDE DIGITAL STORIES  
AND OTHER FILMS

Saturday November 3, 3:30pm – 5:30pm

Carnegie Community Centre Theatre, 401 Main

We invite you to four acts of digital stories and videos. The digital form is a wonderful medium to use to tell the many stories from the streets of the Downtown Eastside.

As part of the City's 125th Anniversary celebrations, the Vancouver Park Board selected a team of digital media artists to work within the Vancouver community to capture the oral histories, stories and memories of local residents. A member of the team, Lisa Walker, who also facilitates the Carnegie Art Workshops, shares a handful of digital stories from the Downtown Eastside.

Bob Currie is a leader in the making of digital stories here in the Downtown Eastside. His latest project is a story about the countless outside murals that we enjoy in the neighbourhood.

Another leader and mentor in digital story making is Adrienne Macallum. She started with the SHIRE project and continues to work in the medium. Her new piece is a collection of Carnegie Community Centre members telling their stories about how they came to Vancouver and what Carnegie means to them, some of it based on the book *When I came to Vancouver* created last year by the Carnegie Learning Centre.

The fourth act features two short documentaries connected to Vancouver Moving Theatre, co-producer of the Heart of the City Festival.

**This is Mikanak** (5min) by Brenda Prince. A first time filmmaker and creative writing student at UBC, Brenda's film is about her mother Harriet Prince. Harriet is not only a survivor but a striver. Harriet and Brenda both appeared in *In the Heart of a City: The Downtown Eastside Community Play* (Vancouver Moving Theatre/ Carnegie Community Centre, 2003).

**Storyweaving at the Gathering Place** (11min) directed by Renae Morriveau and Cowboy Smithx. This video gives voice to those who have lived within and around the Canadian legislation of the Indian Act, and provides a glimpse into the creative process of *Storyweaving* – a theatrical event that honoured First Nation ancestral and urban presence in Greater Vancouver. *Storyweaving* was produced by Vancouver Moving Theatre in partnership with the Vancouver Aboriginal Friendship Centre in May 2012, and featured a team of urban Aboriginal writers, elders, actors, dancers, singers, and culture carriers who wove First Nations memories from the past into the future. The video includes DTES involved artists Sue Blue, Sam Bob, Stephen Lytton, Brenda Prince and Priscillia Tait.

Did you know that the Georgia Viaduct is part of the Vancouver freeway system that local residents and activists brought to a grinding halt? John Atkin, Strathcona resident, civic historian and author, will lead us on a tour of what's been lost (Hogan's Alley), what wasn't built (the freeway), and the consequences for the neighbourhood. The walk will end at the former home of the Chan family, leaders in the fight to stop the freeway, to coincide with the SPOTA Mosaic Unveiling and tribute. \$10 for non-residents, pay what you can for local residents

## Unveiling, Plaque Presentation & Reception

**SPOTA MOSAIC & PLACES THAT MATTER**

**Saturday November 3**

**3:30pm – 4pm Unveiling & Plaque Presentation**

**Walter and Mary Lee Chan House, sidewalk 658 Keefer**

**4pm -5pm Reception**

**Strathcona Community Centre, 601 Keefer**

Urban renewal - the City's vision circa 1958 - was a major and drastic overhaul of what the city would be. One of the major thrusts of this plan was to put a freeway through the city that would destroy the neighbourhood in Vancouver's East End (later known as Strathcona).

In 1968 after close to a decade of opposing the changes, the Strathcona Property Owners and Tenants Association (SPOTA) was formalized and the neighbourhood had a voice. It was heard both locally and nationally, and a movement was born that resulted in a new way of thinking in respect to urban "social" planning.

The SPOTA Mosaic pays tribute to the founding members and supporters of SPOTA. The concept of a permanent legacy to honour those who fought to stop the freeway was originally conceived during the Downtown Eastside Public Realm Arts Plan process (Richard Evans, Terry Hunter, Carmen Rosen). This mosaic and location was conceived and developed by long-time Strathcona resident Esther Rausenberg, designed by Richard Tetrault, and created by Richard Tetrault and Jerry Whitehead. The project is an initiative of the Community Arts Council of Vancouver - Creative Pathways project, with support from the City of Vancouver Great Beginnings Program.

Also being placed is a Vancouver Heritage Foundation *Places That Matter* plaque to recognize the home of Walter and Mary Chan, community members who led the fight against the freeway. For more information about the plaque project: [www.vancouverheritagefoundation.org](http://www.vancouverheritagefoundation.org)

**BIG JAZZ AT THE HEART OF THE CITY FESTIVAL**

**Saturday November 3, 8pm – 10:30pm**

**Ukrainian Hall, 805 E. Pender**

The Downtown Eastside's hot Carnegie Jazz Band joins with the legendary Dal Richards Combo in this evening of great jazz that will have everyone in the Ukrainian Hall a shakin'!

The much honoured Dal Richards, the "King of Swing", tonight with his seven piece Combo, leads superb musicians in a blend of unique sounds that capture the best of the big band era, along with jazz, rock and pop standards. Now living around the corner from Victory Square, Dal has childhood memories of the neighbourhood. Every Saturday "we shopped at Woodward's, we had dinner at Woodward's then we walked down the block to the Pantages Theatre [at Hastings and Carrall]...when those lights came up and the orchestra struck up in the pit, my heart went pitty-pat." Dal's visits to the legendary theatre helped inspire him to start his eight-decade career in show business.

Then the Carnegie Jazz Band takes to the stage! Led by the wonderful tutelage of accomplished composer and multi-instrumentalist Brad Muirhead, the Carnegie Jazz Band is comprised of enthusiastic amateur and semi-pro jazz musicians. Last year the band had the honour of performing in a double bill with the Dal Richards Orchestra at Government House in Victoria at the invitation of His Honour, Steven Point, Lieutenant Governor of British Columbia. Joining the Carnegie Jazz Band for tonight's concert are two very special guests: Juno award-winning trombonist Hugh Fraser; and proud resident of the Downtown Eastside, vocalist Dalannah Gail Bowen. Cabaret style seating with dance floor, so bring your dancing shoes for this evening of great music! Sliding scale \$2 - \$20

### The Ukrainian Cultural Centre Celebrating its 85th year

Run by the Association of United Ukrainian Canadians (AUUC), the Ukrainian Cultural Centre at Pender and Hawkes is celebrating its 85th year in this community!

The focus of the AUUC this year is to remember the work of the Centre's pioneers, and to build its future - with the younger generations taking the lead. Since the establishment of the Centre in 1928, the AUUC has presented a continuous program of instruction and performance in dance and choral and instrumental music. The AUUC School of Dance instructs children of pre-school age who progress through several levels according to ability. The Dovbush Dancers, the Centre's senior dance group - along with most of the more junior groups - have won many awards and trophies at the annual BC Ukrainian Dance Festival. The AUUC welcomes members of the community to attend concerts, bazaars and perogy lunches, and to participate in any of its activity groups. The Centre extends an invitation to people who play a musical instrument to join the Vancouver Folk Orchestra, the longest running folk orchestra in the City of Vancouver.

A calendar of events for all activities is available at the Sunday November 4th concert and dinner. For more information visit: [www.auucvancouver.ca](http://www.auucvancouver.ca).

# OUR RIGHT TO FOOD

For much of my life I've been having conversations about our right to food. Over the last year, many of those conversations have been with my friends and neighbours in the Downtown Eastside who are becoming more and more concerned about the proliferation of a two-tier food system. Those of us that are materially poor are finding it increasingly difficult to access healthy, local and organic foods. We all recognize nutritious food has positive effects on our health.

Food has the magical ability to bring people together, to be a vehicle for sharing and learning. We all have a right to food – but for a growing number of us hunger and lack of access to food seems inescapable. As a society we need to understand why this is, and how we can work towards living in a country where every citizen has the opportunity to enjoy their own right to food.

## Do we have a Right to Food?

According to article 25 of The Universal Declaration of Human Rights, of which Canada is a signatory "everyone has the right to a standard of living adequate for the health and well-being of himself and of his family, including food, clothing, housing and medical care and necessary social services..."

## What can be done to make a Right to Food a reality?

The factors that contribute to food insecurity include low wages/incomes (including social assistance), a lack of affordable housing, the need for more affordable child-care, and the growth of charity as a response to issues of hunger. These things must be addressed in a realistic way if we can truly claim to enjoy our Right to Food.

The longer we neglect to pay attention to the systemic issues, the inequity becomes more entrenched and more difficult to address. We need action now – it is important to the health of our friends and neighbours who aren't able to secure the food that they need to keep them alive, healthy and strong. There are some incredible advocacy groups and campaigns that are hard at work in British Columbia that you can support and get involved with that are working to challenge the systemic issues that get in the way of our right to food. Together we can work for better and we must!

*Downtown Eastside Neighbourhood House*

**The Downtown Eastside Neighbourhood House** at 573 E. Hastings welcomes Downtown Eastside residents of all ages, descriptions and ancestries. They mirror the entirety of this community: in its beauty and its harshness, its poetry and frustration. Following a principle of 'cheap 'n cheerful', while subscribing to 'low tech' techniques and beauty and fun, they are strong supporters of the Downtown Eastside Right to Food Philosophy and Food Charter. They strive to do their part in raising nutritional standards in the DTES where far too many good people remain nutritionally vulnerable and live in housing with no cooking facilities or storage for food stuffs. For more information visit: [dtesnh.wordpress.com](http://dtesnh.wordpress.com)

## The Downtown Eastside Right to Food Philosophy upholds the human right of Downtown Eastside residents to:

- Abundant, local, fresh, nutritious and affordable food that's available across the neighbourhood and delivered in a dignified and respectful manner;
- Adequate housing with cooking facilities & a living wage so that they have the choice of eating at their own kitchen tables;
- Food Provider Kitchens that are "green," support compost/recycling social enterprises and employ Downtown Eastside residents;
- "Food-smart" education around nutrition, growing, harvesting, cooking and storing foods.

Co-produced by SFU Woodward's

and Vancouver Moving Theatre

in cooperation with the Community Arts Council of Vancouver.

Sam Bob, Emily Robinson, Jay Brazeau

Victorian England meets Vancouver's Downtown Eastside. Scrooge, a local pawnshop operator, is brought face to face with reality in this haunting, funny, music-filled and spirit-lifting production.

*Dickens' portrayal of residents displaced and driven into poverty during London's boom years has never been out of print. Not only is it a ghost story filled with unforgettable characters, but Dickens' advocacy for social justice, ethical transformation and generosity of spirit are just as urgently needed today. "Charity begins at home," Dickens said, "and justice begins next door."*

Featuring Jay Brazeau (Scrooge); Jim Byrnes (Marley); and among others, First Nations performers Margo Kane (Narrator), Sam Bob and DTES resident Stephen Lytton (The Ghosts of Christmas Past and Present); and DTES residents Mike Richter (Fred) and Emily Robinson (The Kid).

In the Heart of a City: The Downtown Eastside Community Play (2003)

*“What community raised a totem pole in Oppenheimer Park to honour those who have died, and those who continue to struggle within it? Which community sewed a banner with ninety-two beautiful panels to remember its missing and dead women? Where has a community fought for seven years to get a community centre, camped out for months to get a waterfront park, and then had to file a human rights complaint to get access to the park for people with disabilities? Which community struggled for harm reduction policies and won the continent’s first safe injection site? Where did people gather to begin the On-to-Ottawa trek that was the beginning of unemployment insurance and the eight hour day in Canada?”*

Jean Swanson, The Soul of Vancouver: Voices from the Downtown Eastside

**W**hen my husband Terry and I moved into the Downtown Eastside over 35 years ago, we encountered a very different world than today. Back then it was a residential community with a busy retail strip centred around Woodward’s retail and grocery store, lots of mom and pop stores serving the mostly low-income locals, and some long-standing cultural centres. We rarely saw a homeless person nor did we see injection drugs used

openly on the streets – in fact, locals worried about bars over-serving beers to the patrons. Our arrival coincided with a whole slew of local victories, in particular the defeat of a plan to wipe out huge areas of Strathcona, Chinatown and Gastown with high-rise towers and an 8-lane super-freeway. But just before the freeway was cancelled, construction of the Georgia Viaduct wiped out the two most active blocks of black-owned businesses and rentals, and the historic area surrounding Hogan’s Alley. Grassroots actions forced government policies to change and as a result provincial and federal governments invested in innovative social housing programs, rehabilitation of existing homes and a Neighbourhood Improvement Program that launched a cultural renaissance. The Powell Street Festival was born, the Firehall building was transformed into a theatre, and Terry, Karen Jamieson and I started rehearsing in Chinatown with our dance collective Terminal City Dance.

I didn’t know the neighbourhood’s stories when we arrived. I only knew we had found an affordable home, space to rehearse, and a community that welcomed and respected diversity. Over the years of the 1980s and 1990s, as Terry and I founded and developed Vancouver Moving Theatre, our neighbourhood was transforming. Although Vancouver has always had

cycles of prosperity and loss, we could see the Downtown Eastside was being particularly hard hit. Warehouses and jobs were moving to the suburbs; the fishing industry declined with the decline of fishing stock; redevelopment of Gastown pushed low-income residents east; and policing actions moving prostitution onto the streets coincided with a series of murders of sex trade workers. The traumatic legacy of Indian residential schools, downsizing of mental hospitals, welfare reduction policies, privatizing and off-shoring of jobs, and loss of affordable housing correlated with a surge in visible poverty, survival sex trade, property crime, homelessness, self-medicating among all levels of society; and a new drive-by drug market plugged into global drug trade.

Insensitive development has threatened the community’s identity, human scale, physical forms and heritage. And it has displaced residents. And this troubles me because the Downtown Eastside contains the city’s only surviving concentration of affordable housing for low-income residents. Many who are displaced have no other place to go. Our neighbourhood is still a vital, functioning, culturally and socially diverse and stable neighbourhood. But we’re facing the same huge problems faced by inner city and rural communities all over the world.

As Terry and I became parents, we looked for opportunities to nourish local connections, help our neighbours and plant deeper roots. Terry taught percussion to local kids and started a community marimba band. We taught drum dancing at the dance studio just down the street and ran the Strathcona Artist at Home Festival for six years. This festival first opened up to us the wealth of art forms, cultures, struggles, stories, and history of the Downtown Eastside. And then in 2003 the Carnegie Community Centre invited us to co-produce the Downtown Eastside Community Play. It was our turn to give back to the community. For over thirty years, the Downtown Eastside had provided us with an affordable home where we could create our art and raise our son. We owed a huge debt of gratitude.

Co-producing the community play turned out to be transformative for Terry and myself. We’ve made new and enduring friendships, new creative explorations and partnerships, and our artistic practice and relationship with this community has deepened. We are inspired and humbled as we learn more and more about the extraordinary contributions people have made and continue to make to the Downtown Eastside – through art, activism, social services, history walks and business — people like Jean Swanson, Bruce Eriksen, Mary Chan, Takeo Yamashiro, Margaret Prevost, poets Sandy Cameron and Bud Osborn, muralist Richard Tetrault, Carole Itter and Daphne Marlatt, Donna Spencer, John Atkin, entrepreneurs Mark Brand and Ken Lyotier, and so many, many, many others. The more we’ve learned, the more we’ve participated in local events and the more involved, connected and committed we’ve become.

We’ve seen how people in this neighbourhood join forces when their health, survival and identity are threatened. How they’ve fought for work and wages, social justice, voting and citizenship rights and recognition as a residential community... for theatres and cultural centres, gardens and parks. We’ve seen people organize for jobs and training, art and media centres, social services, treatment programs, memorials, and meaningful police investigations. We’ve seen and continue to see people contribute through arts to restoration of culture and community transformation. We see people lobbying for systemic changes that build on the neighbourhood’s strengths to make this a healthier community for everyone who lives here.

People in this neighbourhood have good ideas about solving problems themselves based on community plans that they’ve developed for their own areas: in Gastown, Chinatown, Victory Square, Strathcona, the Carnegie Community Action Project, and the DTES Local Area Plan now in development.

We’re seeing people working for the health of their homes and spaces, livelihoods and well-being, for...

- secure, affordable non-market housing, housing that doesn’t displace residents, and housing for the homeless;
- replacement of Single Room Occupancy Hotels by self-contained units with kitchens and bathrooms;
- rent controls to protect low-income residents; policies

and mechanisms to control the pace of development;

- job training and opportunities, local and low-income hiring;
- support for local arts, artists and entrepreneurs;
- appropriate densification that retains the area’s physical form and scale, building on history instead of obliterating it;
- preservation of the neighbourhood as an exceptional cultural and heritage district;
- access to affordable healthy food and places to grow and prepare it;
- accessible and affordable childcare;
- shops and services at prices low-income residents can afford;
- more treatment centres, services that reduce harm, and healing centres that get at the roots of problems;
- public spaces to be public and streets that are safe for walking and cycling.

The Downtown Eastside is my home. I live here because I like my neighbours’ compassion and courage, their diversity and values. I like my neighbourhood’s human scale and beautiful old buildings and bits of green space. And like my neighbours, I want a place where everyone – including low-income residents – feels at home: a neighbourhood that values inclusion, belonging, safety, and connectedness - and where residents are involved in decisions about their own neighbourhood.

All our neighbourhoods start to heal and move forward when we engage in our community and in our culture. @

## TAKE A WALK ON THE DOWNTOWN EASTSIDE

Take a walk on the Downtown Eastside, the heart of Vancouver. The city’s oldest neighbourhood was founded on the Coast Salish seasonal village sites of K’emk’emlay/ Q’umq’umal’ay (where the Hastings Mill set up on Burrard Inlet at the foot of Dunlevy) and Luq’luq’i/Lek’lek’l (today’s Maple Tree Square, where Gassy Jack established the first saloon). Embedded within and around Greater Vancouver are three Coast Salish First Nations - the Musqueam, Squamish, and Tsleil-Waututh – whose ancestors exercised overlapping usage rights over the area.

The spit of land was originally bounded by Burrard Inlet on the north, the former tidal flats of False Creek to the south, and on the east and west between salmon-bearing tidal streams that once flowed up the ravines at today’s Campbell and Carrall/ Columbia Streets. False Creek was four times the size it is today, fanning all the way towards Clark Drive from a narrow isthmus of land at today’s Main Street. “When the tide was out, the table was set,” Coast Salish people remember.

Located on unceded Coast Salish territory and once known simply as the East End, today’s Downtown Eastside is made up of several historic districts: Victory Square, the Hastings corridor, Chinatown, Strathcona, Japantown (aka Oppenheimer), North Hastings, Gastown and the port of Vancouver. @

### FIREHALL ARTS CENTRE Congratulations on 30 years!

The Firehall Arts Centre opened its doors at 280 East Cordova on February 25, 1982 and the Firehall Theatre Society was incorporated in 1983. It established itself as one of the first theatre companies to incorporate aboriginal and culturally diverse artists within its practice.

The building the Firehall calls home was built in 1906 and acted as Vancouver's first fire station until the mid '70s. Located in the historic heart of the city, the Firehall strives to produce and present work that highlights and supports Canada's multiculturalism. As the first company focusing on Canadian work with this intent, the Firehall broke through social barriers and helped playwrights, actors, dancers, performers and producers of various cultural backgrounds present work to audiences across the country.

Led by Artistic Producer Donna Spencer, the Firehall Theatre Society has evolved into one of Canada's most respected cultural hubs.

### Celebrating 40 Years of Community Service

This year marks the 40th Anniversary of Strathcona Community Centre, a little facility that does big things. It is an inner-city community centre close to the heart of Chinatown in Vancouver's Downtown Eastside whose purpose is "To sustain, promote and develop a resource that supports the changing social and recreational needs and aspirations of the Strathcona community."

Officially opened on June 27, 1972, the SCC operates jointly with Vancouver Parks and Recreation, Strathcona Community Centre Association, in collaboration with the Vancouver School Board and over forty-five organizations, including Vancouver Moving Theatre and the DTES Heart of the City Festival. Since opening day the centre provides a safe, affordable gathering place for children and families, and continues to celebrate diversity as it meets the needs of a very multicultural community.

The SCC provides services and programming for parents with infants and toddlers, senior citizens, food security programs, moms, health, after school care, study hall, sports, arts and music, English language skills, basketball, and youth leadership programs. Here's to the next forty years!

### TRIPLE COMMEMORATION

Vancouver Japanese Language School & Japanese Hall, one of only two Japanese Canadian organizations remaining in historic Japantown, is celebrating three milestones this November under the name Triple Commemoration. First – the 60th anniversary of the re-opening of the school after the seizure of the building by the federal government during WWII. Second – debt incurred in the building of the Japanese Hall in 2000 has been paid off. And third – the newly licensed daycare and Japanese immersion preschool officially opened in fall 2012 in the renovated 1928 heritage building, the same one which reopened 60 years ago! VJLS-JH thanks all the past and present supporters who have made it possible to thrive in this wonderful neighbourhood for 106 years.

## IN MEMORIAM

### RICK 'RICKY' LAVALLIE

It is with great sadness that we remember Rick Lavallie who passed away on January 3, 2012. Ricky's final performance at the Heart of the City Festival was last October 2011 when he interrupted his vigil at Occupy Vancouver to share his own charming brand of bluegrass with us. We are grateful we had a chance to hear him sing one more time.

*"My friend Ricky, as he was known to his friends, was a warrior and musician. We shared the same birthday though he was eleven years younger. Best described as a rebel with many causes, he blessed us with his musical talent, storytelling and caring, big heart. I first met Ricky in the fall of 2002 at WoodSquat where he was arrested. Active in many social and environmental justice movements in Vancouver for many years Ricky Lavallie could always be found on the front line contributing to issues including residential schools, the Downtown Eastside, anti-Olympics, saving wild salmon, and protesting oil tankers on our coast. Journey well and safely Ricky; your pain has ended; your sleep will soothe you; and I will never forget you. Farewell until we meet again."*

### STELLA MOROZ

We are saddened at the passing of Stella Moroz at the age of ninety-three. A lifelong member of the Ukrainian Cultural Centre, Stella was an active and enthusiastic participant in the first and subsequent Heart of the City Festival celebrations. She attended all the Perogy Pinching and Borshcht making sessions prior to the events. On concert day Stella worked in the kitchen, changed into her costume and sang in the Barvinok Choir. After the performance she acted as Hostess and helped seat the dinner guests and was happy to answer any questions about the Ukrainian food specifically or about the Ukrainian Cultural Centre generally. Stella was an advocate for the rich cultural mosaic that is Strathcona. Music and singing remained important activities until her death in this her 93rd year. Stella Moroz, you will be missed by many. Audrey Skalbania

### MILTON K. WONG

Milt Wong was a Downtown Eastside original who went on to forge a highly successful career and life in the community, public and business worlds. He never forgot his roots. He viewed the arts as a powerful medium for personal and community development, and for building bridges of understanding and collaboration across diverse groups and interests. As a philanthropist Milton was a leader in the Friends of Carnegie group that raised funds for the Centre's 100th birthday in 2003 through a celebration of the arts, including *In the Heart of a City: The Downtown Eastside Community Play* (2003). The Heart of the City Festival grew out of this pioneering work in community arts. Above all Milton was a communicator, passionate about social justice and about the values that build an inclusive and caring society.

## THE DOWNTOWN EASTSIDE IS THE SOUL OF VANCOUVER

Sandy Cameron

Now we're not a pretty community.  
We don't have a lot of gorgeous flower gardens or trees like the ones in Stanley Park. We do have Crab Park, the gardens in Strathcona, the colourful murals, and the old Heritage buildings. But when I use the word beauty in regard to the Downtown Eastside, I'm not thinking about nice looking streets. I'm thinking about the people.  
It's the people who make our community beautiful, and people make our community beautiful because they have soul. The Downtown Eastside is the soul of Vancouver. You know about soul food and soul music. Well I'm talking about soul community. Many of us have lived through hard times – and survived. We know about pain, and in our pain, in spite of our pain, We reach out to each other and help each other. That's soul. They say bodies are attracted by pleasure, but souls are attracted by pain. We are strong from the struggles we have endured. We have learned to respect each other, and not be judgemental. We have learned to work together to make things better.

## MAKE YOURSELF AT HOME

Phoenix Winter

I moved into the neighbourhood  
With my things  
Left them  
At the bus shelter  
For passersby

The little peaceful plaque  
On the welcoming bench  
With welcoming words,  
"Pull up a chair  
In a shaft of sunlight  
Come sit with me  
Enjoy this house."  
A small plastic yellow  
Sunflower, strewn  
A touch of cheer.

This is all I have  
Sunshine yellow and clear  
Glass walls  
Bright blue sky  
Warm cement and  
Clean brown wood.

And I will share.

## LISTEN

Diane Wood

Listen to us  
2 all of us who aren't trynta sell dope on the corner,  
Who have our arms out 4 a handshake or a hug,  
not spare change  
Listen to the laughter in a sunny park,  
The hi's & hey's & hello's  
When friends intersect  
And the kisses goodbye  
Smckx  
That's love & community  
& people who look you in the eye when U pass them by  
If all U hear is Up Down Rigs & Threes,  
Then yr not listening

## I LOVE THE HOOD

Dmitri Harris

Yo! My name is Demi and I am 11 years old.  
I like to listen to rap on my radio.

I love my mom  
I like my friends  
When I grow up  
I'm gonna get me a benz

Everyday  
I go to school  
This crazy job action  
Is really cruel

Live'n down here  
It ain't no joke  
A whole lot of people sniffin' koke,  
A whole lot of people smoking dope,  
It's hard to cope –  
People offer us some  
We say nope

In Chinatown  
My mom likes the smells  
And she likes to eat  
Them things in shells

The restaurants in Chinatown  
Are really nice  
My favourite meal  
Is chicken and rice

My neighbourhood rules  
It's really cool  
You better not take me  
For a fool

Some things are bad,  
Some things are good.  
That's how I feel  
About liven in this hood.
